

Panic Button When Every Second Counts

Sustainable Next Generation
Location-Based Data
Solutions Give Staff and
Guests Peace-of-Mind That
Safety Is a Button Push Away.

Location-Based Data Solutions

Know when and where to find staff in critical situations.

- Panic button triggers notification within 2-3 seconds
- Notifications show the photo of staff requiring assistance
- Real-time location of staff in need with accuracy to ± 1 foot
- Offer staff a greater sense of security knowing help is only a button-press away

Mobile Application

Customize communications for information at your fingertips.

- Decide who gets notified for what types of events
- Set escalation paths to ensure no event goes unattended
- Maintain full visibility of all mobile acknowledgments in the app for reporting and traceability
